DRDP Dates *for* Early Intervention and Preschool Special Education

To be included in the fall assessment, children must begin services before October 1

Beginning of the school year:

Initiate observations of children's skills and behaviors for the DRDP (2015).

In October:

Focus on those measures for which you have not yet gathered observations. **Observations should be current** with child's skills and progress.

In December:

Complete an *Information Page/Rating Record* for each child, ensuring that observations are current (during six week period prior to data submission).

By January 1:

Complete all *Rating Records* and **check with administrators** as to how, when, and to whom DRDP data will be submitted.

For District and SELPA Administrators:
DRDP data is submitted to CASEMIS.

draccessReports.org

You can produce reports throughout the assessment period to plan for instruction, write goals and outcomes, and share with families.
